Al Hijaz Starts MEP Work on DEWA Reservoirs

Press Release

This month, Al Hijaz Mechanical Equipment Co LLC has been awarded an AED 55 million electromechanical (MEP) subcontract for reservoirs having a total capacity of 120 MG at Al Ghafat. These Dubai Electricity & Water Authority (DEWA) reservoirs will hold desalinated water and contribute to Dubai's water reserve.

The project comprises the construction, testing and commissioning of two 60 MG reinforced concrete reservoirs. Al Hijaz Mechanical Equipment Co LLC will work alongside Pratibha Industries Ltd, who is the main contractor, to execute the pipework system, electromechanical work, chlorination and disinfection equipment, along with the control and SCADA system.

Mr. Mohamed Hijaz, General Manager / Partner says, "We aim to deliver the job in a short span of 24 months, whilst upholding our commitment to Client satisfaction, by delivering a high quality work".
